

```
public String OrderedWords(String sentence, String[] words)
```

You are given a sentence and a set of words. This method should return words in given array in same order as they appear in the sentence.

If a word does not appear in the sentence then it should not be in the output.

E.g. sentence: "Roses are red and Oceans are Blue"

word1 = "Red"

word2 = "are"

word3 = "Blue"

return value = "are Red Blue"
